Additional Comparisons

- Total VLE Clicks: higher than ~45% of students.
- Active Days on VLE: higher than ~41% of students.
- Avg Clicks per Day: higher than ~92% of students.

Personalized Recommendations

-  The student is performing well. Encourage them to maintain or increase their efforts.
-  Submitting more assessments could increase their chance of success.
-  Low platform activity detected. Encourage more engagement with course materials.
